

Personal Invitation:

‘Learning from each other: Looking at GI training across Europe’ – Meeting at UEG Week 2024

Dear Prof. Ivashkin,

Dear Vladimir Trofimovich,

On behalf of Henriette Heinrich, Chair of the **UEG Education Committee**, we personally invite you and/or members of your society to join our **Common Interest Group (CIG)** meeting titled "Learning from each other: Looking at GI training across Europe" during the upcoming UEG Week 2024. This meeting offers a unique platform for professionals to exchange knowledge, discuss national training curricula, and explore ways to learn from each other.

Meeting Details:

- Date: Sunday, October 13, 2024
- Time: 12:30 – 13:20 (closing on time for the Opening Plenary session starting at 13:30)
 - Location: Meeting Room Schubert 1, UEG Week Vienna - UEG Week Venue Floorplans

Session Highlights:

During this session, Dr. Sophie Schlosser-Hupf and Dr. Jonas Staudacher will present the findings from a cooperative analysis of the national gastroenterology training curricula of UEG National Society Members. We are looking forward to discussing with you how various national curricula address skills training, board certification, and assurance of competency, and where we can learn from each other to improve gastroenterology training in the future.

We would greatly value your input, given your expertise and interest in advancing gastroenterology education. **Please also spread the word within your society(ies) or networks, and among those interested in medical education.**

We look forward to welcoming you and sharing an engaging and productive discussion. Please note that a UEG Week congress badge is required to attend this meeting.

Warm regards,

Henriette Heinrich
Chair UEG Education Committee
